

**NOTES:**

- 1 This OPSD shows right shoulder installation. The Extruder Terminal shall be inverted for left shoulder installation.
- 2 Two nuts and a washer shall be installed and locked tight at each end of the cable assembly.
- 3 The system length shall be installed in a straight line parallel to the roadway, at a 50:1 flare rate, or at a 25:1 flare rate as specified.

- A Delineation shall be according to OPSD 984.201 and 984.202.
- B The system depicted here is a proprietary product.
- C System configuration meets NCHRP Report 350 TL-3.
- D This OPSD to be read in conjunction with OPSD 202.031 or 202.032 as specified.
- E All dimensions are in millimetres unless otherwise shown.
